ADMINISTRATION

To the Seniors:

Because of the year in which you are graduating, 1950, there possibly may be more attention focused upon you than upon others whose graduation does not fall at the half-way mark of a century. By the year 2,000 A.D. possibly the world will have forgotten this point, that is, if you stop with graduation. The year 1950 reminds us that you are facing the last half of the century.

But it is within your power, yours and all the thousands of graduates of this year, to bring about such a change for the better in the world that your graduation year will be a memorable one.

By staunch faith and high purpose make it so!

Your friend,

C. J. Garland

C. J. Garland
Superintendent

To the graduates of 1950:

I wish all of you success in your chosen field of life's work--and may each of you make a definite contribution in the betterment of society and world understanding during your half of the century.

You have acquired a cooperative spirit of working together in a democratic manner while in school. The same can be done on a larger scale by throwing off the chains of bigotry, intolerance and ignorance. The key to this is intellectual understanding of your fellow men. I think you have this key, and it will open the gate to success.

Always your friend,

C. A. Landrum
